Construction Contracting

This course focuses on unique construction contracting issues, such as acquisition planning, contract performance management, funding, environmental concerns, construction contract language, construction contracting in the commercial setting, the Davis-Bacon Act, design/build, basic schedule delay analysis, constructive changes, acceleration, and construction contract quality management.

Objectives: Students who successfully complete this course will be able to:

- conduct appropriate, successful, effective construction acquisition planning;
- properly solicit and award a construction contract;
- diagnose, troubleshoot, and determine better construction contract administration; and,
- through critical analysis/thinking, select the best construction business decision given the contract situation.

Who Should Attend: This assignment-specific course is for military and civilian personnel in the DoD AT&L workforce who are in the Contracting career field or who are assigned specific contract administration duties for construction contracts, e.g., professional engineers, quality assurance personnel, and legal counsel personnel. Whenever practical, students should attend the course prior to assuming duties related to construction contracting.
